INTERNET COMMERCE
GRAPHICAL REPORTING AND OLAP

Operations

SERVICE MANAGEMENT
PRODUCTION
PROJECT COSTING
WAREHOUSE MANAGEMENT

Masterpack gives businesses a competitive edge in their ability to deliver in full, on time, every time – the fundamental driver of customer loyalty.

Many manufacturing-based business systems have traditionally focused on selling one product to as many customers as possible. Masterpack has concentrated on the needs of the distribution enterprise – **selling as many different products and services as possible to one customer**. Masterpack recognises that a fundamental growth factor for distribution companies is their ability to capture the maximum Lifetime Value of each of their customers.

Key to Masterpack's success is the software's ability to 'institutionalise' customer intimacy through operational excellence by integrating all major areas of the distribution enterprise.

- Customised Menus
- Drill-Down Enquiries
- Comprehensive On-Line Help, every function, every field

Multiple Levels	Context Sensitive	Intuitive
-----------------	-------------------	-----------

- Point-to-Point Navigation
- Client/Server GUI Screen Deployment

pop-up windows	pull-down menus	edit keys
function keys	action bars	multiple levels of help
dialog boxes	macros	customised button bars

FLEXIBILITY, FUNCTIONALITY, INTEGRITY, SIMPLICITY

- **User Friendly Interface– choice of GUI or character**
- **Customer Express Button Bars**
- **Global Notepad** – centralised access-controlled review of all prior contact with the customer
- **Caller ID** – customises the user’s view of the system to reflect options relevant to the needs typically associated with the particular caller
- **Go To** – allows users to quickly navigate from their current position in the system to any screen in any module
- **Desktop Hot Buttons** – predefined, commonly-used menu options that can be desktop resident, even in other Windows applications
- **Office Access** – provides instant access to Masterpack’s office automation features such as notify, calendar and to-do list
- **System Documentation-** Manuals may be viewed on screen or printed
- **User specific** frequently used functions menu
- **User Generated Report Writing**
- **Underlying Technology**
 - ⇒ IBM Database and Development tool software
 - ⇒ Designed for a rapid development environment
 - ⇒ Contributes to productivity and flexibility
 - ⇒ Reduces maintenance costs
 - ⇒ Ensures that standards are maintained throughout the system
- **Supported platforms**
 - ⇒ Unix, Linux and Microsoft operating systems.

SYSTEM FUNCTIONS

- **Multi user**
 - ⇒ Masterpack supports multiple concurrent users
- **System Security**
 - ⇒ Provides a hierarchical security system. Individual users, or groups of users, can be allocated a specific level of access to the system
- **Controls and Error Checking**
- **Error Correction**
- **Daily Exception Reports**
- **Nightly Reports**
- **Masterfile update utility**
 - ⇒ Masterpack introduces a utility to streamline the mass update of fields within Master Files. This utility is template based to cater for different areas of the product

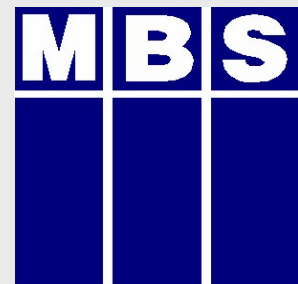

THE COMPANY

Meier Business Systems (MBS) is an Australian owned company that has been providing a broad range of computer support services and products since 1987.

MBS offers outstanding skills in operating system, hardware, database and network support.
